### PROFILE

Having completed a Bachelor's in Computer Applications, he has a passion for web development. As a responsible and detail-oriented individual, he is eager to grow in the field of front-end and full-stack development. With experience in various web technologies, he is capable of creating attractive, functional, and responsive websites. He looks forward to his first professional work experience, where he can apply his skills in real-world projects. His goal is to contribute to innovative solutions, enhance his development skills, and continue growing as an aspiring full-stack developer.

### EXPERIENCE

- TechMind IT Academy**

Full-Stack Developer (November 2024 - January 2025)

- Developed and maintained full-stack applications.
- Provided client support.
- Instructed students on full-stack development concepts and technologies.

### PROJECTS

- AJIO CLONE** | |

HTML | CSS | Java Script

- Fully responsive Ajio clone built with HTML, CSS, and JavaScript, featuring a smooth and attractive user experience.
- Includes Login/Signup forms with regex validation for secure inputs and efficient form handling.
- Offers Product Listing, Single Product, Filtering, Sorting, Search, and Add to Cart functionality for seamless navigation and management.

- KFC Clone** | |

HTML | CSS | REACT | REDUX

- Responsive KFC clone developed using HTML, CSS, JavaScript, React, and Redux, with a modern and seamless user interface across all devices.
- Implements Login/Signup with form validation and Private Routes for secure user access, ensuring restricted cart management for logged-in users only.
- Includes Product Listing, Single Product, Filtering, Sorting, Search, and Add to Cart functionalities for an enhanced shopping experience.
